April 28, 2021

Dear Indian Trail Staff and Families:

District 58 was notified today that two Indian Trail students tested positive for COVID-19. The first positive case is a second grader and is the sibling to the case [we reported on April 22](#). The second grader tested positive on Sunday, April 25 and was last at school on Tuesday, April 20. The second positive case is a full remote fourth grader who tested positive on Monday, April 26.

Per Illinois Department of Public Health (IDPH) guidelines, the students must stay home at least 10 calendar days from onset of symptoms or, for asymptomatic cases, from the COVID-19 test date, AND for 24 hours with no fever (without fever-reducing medication) AND improvement of symptoms. The students are following these requirements.

District 58 completed contact tracing. At this time, we do not believe the students were in close contact with any District 58 students or staff members while at school due to the second grade student maintaining strict social distancing requirements and the fourth grade student being full remote. In the event the District learns there were close contacts with other students or staff inside or outside of school, those individuals will be required to complete a 10-to-14 day quarantine. There is no known school link to these cases.

District 58 will continue to follow all protocols outlined by the IDPH when a student or staff member tests positive. Additionally, the District's custodial staff thoroughly cleans and disinfects all areas of our schools and offices every evening.

District 58 also notified the DuPage County Health Department (DCHD) of these positive cases to ensure that protocols, contact tracing and the self-certification process were strictly followed. The health and safety of our students, staff and families is paramount, and we will continue to follow all guidelines called for by the IDPH and the DCHD. Please continue to wear masks, adhere to social distancing requirements, and thoroughly wash and/or sanitize your hands as this is the best way to combat the spread of COVID-19.

Sincerely,

Dr. Kevin B. Russell  
Superintendent of Schools
